- C) Subject to the requirement of a quorum of members being physically present in the meeting location, members who are not physically present may participate in open or closed meetings by means of a video or audio conference as provided in this policy. Such electronic participation may be allowed only if the member is prevented from physically attending by

 - 2) employment purposes,
 - 3) business of the public body,
 - 4) a family emergency, or
 - 5) another emergency.

The equipment shall be such as to enable persons attending the meeting (including those in the audience) to hear the member speak, and shall also allow the member who is attending electronically to hear other Board members and any person who addresses the Board. The audio or video equipment shall be activated at the beginning of the meeting, or at the time requested by the member, so that the member can participate. If there is no quorum physically present at the meeting, the Board shall designate a person to contact the member and notify him/her of that fact.
- F) If the member who is attending electronically would normally chair the meeting, a president pro tempore who is physically present may be appointed.
- G) When a member attends a meeting electronically, all votes shall be by roll call vote. A member who is attending electronically must identify him/her self by name and be recognized by the Chair before speaking.
- H) This policy shall apply to any subsidiary committee, subcommittee or other agency of the Board which is a "public body" under the Illinois Open Meetings Act, and shall constitute the Board's "rules" regarding electronic attendance as permitted by 5 ILCS 120/7(c). 01.25.09 E-mail Communications Among Board Members

02.19.00 Material Selection

B) Works of Art

Only the Board of Trustees may accept donations of artwork. The Board reserves the right to determine the location and display of artwork. The Board may place unrestricted monetary gifts in the Gift Fund, the primary purpose of which is to utilize earnings for the purchase of library materials and the growth of the Fund itself. 02.37.01 Fund Balance Policy

This Fund Balance Policy is established to provide financial stability, cash flow for operations, and maintenance of an adequate fund balance to ensure that the FRVPLD will be able to respond to emergencies from a position of fiscal strength. The FRVPLD will comply with the Government Accounting Standards Board (GASB) Statement 54.

GASB 54 Fund Definitions

Nonspendable Fund Balance – assets that are not in a spendable form (pre-pays) or are required to be maintained intact (the principal of a permanent fund).

Restricted Fund Balance – the portion of a fund that is subject to externally enforceable legal restrictions or restricted through ordinances adopted by the Library Board.

Unrestricted Fund Balance – the total of the *Committed, Assigned and Unassigned Fund Balances*

A) *Committed Fund Balance* – amounts that subject to a self-imposed limitation by formal action of the Board. Modification or removal of the limitation may only occur through formal action by the Board.

B) *Assigned Fund Balance* – amounts that the Board intends to use for a specific purpose.

C) *Unassigned Fund Balance* – amounts available for any purpose.

FRVPLD Funds & Targets (GASB54)

The order of spending fund balances is as follows: restricted, committed, assigned, unassigned.

General Fund – funds used for operating the Library. Total *unrestricted fund balances (committed, assigned and unassigned)* in the General Fund should represent no less than three (3) and no more than twenty-four (24) months of operating expenses. Balances over the maximum at the end of the fiscal year shall be transferred to the Capital Projects fund.

Special Revenue Funds – funds used to account for and report the proceeds of specific revenue sources that are legally restricted (tax levy)

[Return to Table of Contents](#)

or committed (by the Library Board) for specific purposes other than debt service or capital projects. Increases and decreases in the fund balances are associated with specific purposes: therefore, no target range is established for these funds.

Capital Project Funds – funds used for capital maintenance and repair, construction and/or development. Increases and decreases in the fund balance are associated with the specific projects planned: therefore, no target range is established for this fund.

Debt Service Funds – funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. The fund balance is fully restricted to debt service; however, any fund balance remaining once all financial obligations have been satisfied may be transferred to the Capital Projects Fund.

Permanent Funds – funds used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support FRVPLD programs. Increases and decreases in the fund balance are associated solely with transfers to other Library accounts: therefore, no target range is established for this fund.

02.37.02

Investment Policy

This policy applies to those funds that are under the authority of the Fox River Valley Public Library District.

General Objectives

With the exception of cash accounts, all investments will be selected on the basis of competitive quotations; at least two qualified institutions will be contacted each time an investment is placed.

A) Safety

Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in individual investments and the overall portfolio. The objective will be to mitigate credit risk, interest rate risk and custodial risk.

1. Credit Risk

FRVPLD will minimize credit risk, which is the risk of loss due to the failure of the security issuer or backer, by:

- a. Limiting investments to the types of securities permitted under Illinois Public Funds Investment Act, 30 ILCS 235/1 *et.seq.*
- b. The Board shall by resolution approve the public depositories that are deemed appropriate for use under Illinois and Federal law.
- c. Diversifying the investment portfolio so that the impact of potential losses from any one type of security or from any one individual issuer will be minimized.

2. Interest Rate Risk

FRVPLD will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by structuring the investment portfolio

[Return to Table of Contents](#)

so that the securities mature to meet case requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity.

3. Custodial Risk

FRVPLD will minimize custodial risk, which is the risk that in the event of a financial institution failure, the District deposits may not be returned to it, by:

- a. Maintaining a list of public depositories, financial institutions and broker/dealers authorized to provide deposit and investment services.
- b. All public depositories, financial institutions and broker/dealers authorized to provide deposit and investment services must supply as appropriate audited financial statements demonstrating compliance with state and federal capital adequacy guidelines.

B) Liquidity

The investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated. Investment portfolios will be structured so that securities mature concurrent with cash needs to meet anticipated demands. Alternatively, a portion of any portfolio may be placed in money market mutual funds or local government investment pools authorized and permissible under Illinois statutes which offer same-day liquidity for short term funds.

C) Yield

Investment portfolios shall be designed with the objective of attempting to attain a market rate of return throughout budgetary and economic cycles, taking into account investment risk constraints and liquidity needs. Return on investment is of secondary importance compared to the safety and liquidity objectives described above. Securities shall generally be held until maturity with the following exceptions;

1. A security with declining credit quality may be sold prior to maturity to minimize loss of principal.
2. Liquidity needs of FRVPLD require a security or securities are sold prior to maturity.
3. A security swap would improve the safety and yield of the overall portfolio.

Standards of Care

A) Prudence

The standard of prudence to be used by investment officials shall be the "prudent person" standard, which states "investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not

[Return to Table of Contents](#)

for speculation, but for investment, considering the probable safety of their capital as well as the probably income to be derived” and shall be applied in the context of managing an overall portfolio.

Investment officers acting in accordance with written procedures and this Investment Policy and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely manner and the liquidity and the sale of securities are carried out in accordance with the terms of this policy. Notwithstanding any other provision of law, the Board Treasurer and Director, or other FRVPLD employee in the absence of the Director, who deposits public money in any authorized public depository, in compliance with Illinois statutes regarding public deposits, is relieved of any liability for any loss of public monies which results from the failure of any public depository to repay the public depositor the full amount of its deposits.

B) Ethics and Conflicts of Interest

FRVPLD officers and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions. Officers and employees shall refrain from undertaking personal investment transactions with the same individual with whom business is conducted on behalf of FRVPLD.

C) Delegation of Authority

Management responsibility for the investment program of FRVPLD is entrusted to the Treasurer under the direction of the Board. Individuals authorized to engage in investment transactions on behalf of FRVPLD are the Treasurer or those individuals designated by the Board. Administrative responsibility for the investment program is hereby delegated to the Director.

D) Authorized and Suitable Investments

Authorized investments include any investment stipulated in Illinois Public Funds Investment Act, 30 ILCS 235/1 *et seq.*

1. Unless matched to a specific cash flow requirement, FRVPLD will not directly invest in securities maturing more than five (5) years from the date of purchase.
2. Reserve funds may be invested in securities exceeding five (5) years if the maturity of such investments is made to coincide as nearly as practicable with the expected use of the funds.

Internal Controls

The Board Treasurer and Director shall establish a system of internal controls designed to prevent losses of FRVPLD funds arising from fraud, misrepresentation by third parties, unanticipated changes in financial markets, employee error or imprudent actions by employees.

[Return to Table of Contents](#)

Internal Controls shall address:

- A) Separation of transaction authority from accounting and record keeping.
- B) Clear delegation of authority to subordinate staff members.
- C) Written confirmation of transactions for investments and wire transfers.
- D) Dual authorizations of wire transfers.
- E) Development of a wire transfer agreement with the lead bank and third-party custodian.
- F) Investment and interest earnings will be recorded in FRVPLD accounting records based on generally accepted government accounting procedures.
- G) A monthly summary of all investment transactions will be prepared by the Director for review by the Board.

Investment Parameters

Investments shall be diversified by:

- A) Limiting investments to avoid over concentration in securities from a specific issuer, industry or business sector, excluding U.S. Treasury obligations.
- B) Investing in securities with varying maturities.
- C) Continuously investing a portion of the investment portfolio in readily available funds such as local government investment pools, money market accounts or money market mutual funds permissible under Illinois statutes.

Investment Reporting

The Director and Board Treasurer shall prepare a monthly investment report that provides the following information:

- A) Principal and type of investments
- B) Earnings for the Current Month and Year to Date
- C) Market value of the Portfolio

The investment report shall be used as a performance measure and as a means to demonstrate to the Board the degree of compliance with the Policy.

In addition to monthly reports, a comprehensive annual report shall be prepared. This review will focus on the overall performance of investments during the year as well as a projection of what may be anticipated in the future as compared to the results of the past year.

[Return to Table of Contents](#)

From time to time, the Treasurer and/or the Library Director may suggest policies and improvements that might be made in the Investment Policy.

Pooling of Cash

Except where otherwise provided by the Board, the Director is authorized to pool the cash of various funds to maximize investment earnings where it is advantageous and prudent to do so. Investment income will be allocated to the various funds based on the pro rata portion of each fund.

02.37.03

Special Reserves

In accordance with (75 ILCS 5/5-8; 75 ILCS 16/40-50), the Board shall establish a Special Reserve Fund for the FRVPLD buildings, maintenance, and emergencies. The fund shall receive monies annually from unexpected budgeted funds in order to build the fund toward future FRVPLD building, land and maintenance needs.

Approved March 11, 2013

02.37.04

Capital Asset Policy

FRVPLD shall maintain a Capital Improvements Program (CIP) to identify capital projects and equipment purchases, provide a planning schedule and identify options for financing the plan. All capital improvements shall be in accordance with the CIP.

The Fox River Valley Public Library District will meet the reporting requirements set forth in the Governmental Accounting Standards Board Statement No. 34 (GASB 34) which states that governments should provide additional disclosures in their annual audit report including the procedure for capitalizing assets and for estimating the useful lives of those assets which is used to calculate the depreciation expense. The GASB 34 also requires disclosure of major classes of assets, beginning and end-of-year balances, capital acquisition, sales/dispositions, and current-period depreciation expense.

The Director shall ensure that control of capital assets is maintained by establishing an inclusive capital asset inventory schedule. Asset purchases, which fall below the capitalization threshold defined in the procedures, will not be included in the capital asset inventory.

Approved September 9, 2013

02.37.05

Planning and Budgeting

General Objectives

- A) FRVPLD will abide by the zero based budgeting process, whereby every line item of the budget, rather than only the changes from the previous year, must be approved. This methodology reaffirms the relationship between revenues and services, taxes and spending, and involves departments in the process from the beginning.
- B) FRVPLD seeks and encourages resident input in budget planning issues and service level decisions.
- C) FRVPLD will maintain positive fund balances for all funds.
- D) FRVPLD will protect the Library's assets by maintaining adequate insurance coverage through either commercial insurance or risk pooling arrangements with other governmental entities.

[Return to Table of Contents](#)

- F) FRVPLD will evaluate and adjust the salary schedule consistent with market rates for positions with comparable responsibilities every three years.

Rights and Freedoms

The Library has adopted the Library Bill of Rights, the Freedom to Read statement and the Freedom to View statement drafted by the American Library Association. The American Library Association affirms that all libraries are forums for information and ideas, and that the following basic policies should guide their services.

[Return to Table of Contents](#)

02.39.01 Library Bill of Rights

<http://www.ala.org/advocacy/intfreedom/librarybill>

- A) Books and other library resources should be provided for the interest, information and enlightenment of all people of the community the library serves. Materials should not be excluded because of the origin, background, or views of those contributing to their creation.
- B) Libraries should provide materials and information presenting all points of view on current and historical issues. Materials should not be proscribed or removed because of partisan or doctrinal disapproval.
- C) Libraries should challenge censorship in the fulfillment of their responsibility to provide information and enlightenment.
- D) Libraries should cooperate with all persons and groups concerned with resisting abridgement of free expression and free access to ideas.
- E) A person's right to use a library should not be denied or abridged because of origin, age, background or views.
- F) Libraries which make exhibit spaces and meeting rooms available to the public they serve should make such facilities available on an equitable basis, regardless of the beliefs or affiliations of individuals or groups requesting their use.

Adopted June 18, 1948, by the ALA Council; amended February 2, 1961; amended June 28, 1967; amended January 23, 1980; inclusion of "age" reaffirmed January 24, 1996.

In addition, the Board also believes that a person's right to use a library should not be denied or abridged because of gender, religion or race.

02.39.02 Freedom to Read

<http://www.ala.org/ala/aboutala/offices/oif/statementspols/ftstatement/freedomreadstatement.cfm>

The freedom to read is essential to our democracy. It is continuously under attack. Private groups and public authorities in various parts of the country are working to remove or limit access to reading materials, to censor content in schools, to label "controversial" views, to distribute lists of "objectionable" books or authors, and to purge libraries. These actions

apparently rise from a view that our national tradition of free expression is no longer valid; that censorship and suppression are needed to counter threats to safety or national security, as well as to avoid the subversion of politics and the corruption of morals. We, as individuals devoted to reading and as librarians and publishers responsible for disseminating ideas, wish to assert the public interest in the preservation of the freedom to read.

[Return to Table of Contents](#)

Most attempts at suppression rest on a denial of the fundamental premise of democracy: that the ordinary individual, by exercising critical judgment, will select the good and reject the bad. We trust Americans to recognize propaganda and misinformation, and to make their own decisions about what they read and believe. We do not believe they are prepared to sacrifice their heritage of a free press in order to be "protected" against what others think may be bad for them. We believe they still favor free enterprise in ideas and expression.

These efforts at suppression are related to a larger pattern of pressures being brought against education, the press, art and images, films, broadcast media, and the Internet. The problem is not only one of actual censorship. The shadow of fear cast by these pressures leads, we suspect, to an even larger voluntary curtailment of expression by those who seek to avoid controversy or unwelcome scrutiny by government officials.

Such pressure toward conformity is perhaps natural to a time of accelerated change. And yet suppression is never more dangerous than in such a time of social tension. Freedom has given the United States the elasticity to endure strain. Freedom keeps open the path of novel and creative solutions, and enables change to come by choice. Every silencing of a heresy, every enforcement of an orthodoxy, diminishes the toughness and resilience of our society and leaves it the less able to deal with controversy and difference.

Now as always in our history, reading is among our greatest freedoms. The freedom to read and write is almost the only means for making generally available ideas or manners of expression that can initially command only a small audience. The written word is the natural medium for the new idea and the untried voice from which come the original contributions to social growth. It is essential to the extended discussion that serious thought requires, and to the accumulation of knowledge and ideas into organized collections.

We believe that free communication is essential to the preservation of a free society and a creative culture. We believe that these pressures toward conformity present the danger of limiting the range and variety of inquiry and expression on which our democracy and our culture depend. We believe that every American community must jealously guard the freedom to publish and to circulate, in order to preserve its own freedom to read. We believe that publishers and librarians have a profound responsibility to give validity to that freedom to read by making it possible for the readers to choose freely from a variety of offerings.

The freedom to read is guaranteed by the Constitution. Those with faith in free people will stand firm on these constitutional guarantees of essential rights and will exercise the responsibilities that accompany these rights.

- A) It is in the public interest for publishers and librarians to make available the widest diversity of views and expressions, including those which are unorthodox, unpopular, or considered dangerous by the majority.

[Return to Table of Contents](#)

- B) Publishers, librarians, and booksellers do not need to endorse every idea or presentation they make available. It would conflict with the public interest for them to establish their own political, moral or aesthetic views as a standard for determining what should be published or circulated.
- C) It is contrary to the public interest for publishers or librarians to bar access to writings on the basis of the personal history or political affiliations of the author.
- D) There is no place in our society for efforts to coerce the taste of others, to confine adults to the reading matter deemed suitable for adolescents, or to inhibit the efforts of writers to achieve artistic expression.
- E) It is not in the public interest to force a reader to accept the prejudgment of a label characterizing any expression or its author as subversive or dangerous.
- F) It is the responsibility of publishers and librarians, as guardians of the people's freedom to read, to contest encroachments upon that freedom by individuals or groups seeking to impose their own standards or tastes upon the community at large; and by the government whenever it seeks to reduce or deny public access to public information.
- G) It is the responsibility of publishers and librarians to give full meaning to the freedom to read by providing books that enrich the quality and diversity of thought and expression. By the exercise of this affirmative responsibility, they can demonstrate that the answer to a "bad" book is a good one, the answer to a "bad" idea is a good one.

We state these propositions neither lightly nor as easy generalizations. We here stake out a lofty claim for the value of the written word. We do so because we believe that it is possessed of enormous variety and usefulness, worthy of cherishing and keeping free. We realize that the application of these propositions may mean the dissemination of ideas and manners of expression that are repugnant to many persons. We do not state these propositions in the comfortable belief that what people read is unimportant. We believe rather that what people read is deeply important, that ideas can be dangerous: but that the suppression of ideas is fatal to a democratic society. Freedom itself is a dangerous way of life, but it is ours.

Adopted June 25, 1953, by the ALA Council and the AAP Freedom to Read Committee; amended January 28, 1972; January 16, 1991; July 12, 2000; June 30, 2004

02.39.03 Freedom to View

<http://www.ala.org/ala/mgrps/rtts/vrt/professionalresources/vrtresources/freedomtoview.cfm>

The freedom to view, along with the freedom to speak, to hear and to read, is protected by the First Amendment to the Constitution of the United States. In a free society, there is no place for censorship of any medium or expression. Therefore these principles are affirmed:

[Return to Table of Contents](#)

- A) To provide the broadest possible access to film, video, audio tapes and other audiovisual materials because they are a means for the communication of ideas. Liberty of circulation is essential to insure the constitutional guarantee of freedom of expression.
- B) To protect the confidentiality of all individuals and institutions using film, video and other audiovisual materials.
- C) To provide film, video and other audiovisual materials which represent a diversity of views and expression. Selection of a work does not constitute or imply agreement with or approval of the content.
- D) To provide a diversity of viewpoints without the constraint of labeling or prejudging film, video and other audiovisual materials on the basis of the moral, religious, or political beliefs of the producer or filmmaker or on the basis of controversial content.
- E) To contest vigorously, by all lawful means, every encroachment upon the public's freedom to view.

This statement was originally drafted by the Freedom to View Committee of the American Film and Video Association (formerly the Educational Film Library Association) and was adopted by the AFVA Board of Directors in February 1979.
