Fox River Valley Libraries Dundee Library • Randall Oaks Library

Serving 70,000 residents of Carpentersville, East Dundee, West Dundee, Sleepy Hollow, Gilberts, and parts of Algonquin

Designing Our Future

Our users express why they value the library everyday—for computer classes, children's programs, computer use, family time, books and e-books, and more.

During the past 18 months, our users have also shared their hopes for the future—room for more books, programs, and classes; study rooms and computer labs; additional space on the west side and better use of the space at the Dundee Library.

Our consultants have asked questions, studied trends, and observed best practices in libraries similar to ours.

Now we'd like to introduce our design team, the professionals who will begin the process of converting the community's needs into something we can visualize, libraries with enough space to house a robust collection of books, meeting rooms, study rooms, computer labs, and more. How much more? You tell us.

It is a joy to visit the library! My weekly visits are the highlight of my week! I look forward to seeing the helpful staff and I always find great books, movies, and resources to use at home and with my preschool classes.

Julie Graham, Carpentersville

There are so many wonderful resources for parents.... I love learning with my son.

Yvette Duffy, Dundee

The classes that were offered such as Microsoft Word, Excel, and PowerPoint have helped me prepare for job offers.

Brian Briesse, East Dundee

I just love your DVD section and your computers. We are new to the area and don't have a computer at home so we come here and it's just great!

Lisa Elles, Sleepy Hollow

Going to the library has bonded our family. We branch out and read things that other family members like. This opens our ideas and minds to new things. One likes mystery, one likes science fiction... it's a wonderful opportunity to broaden our horizons. We even switch up videos too... we love our library!

Susan Dunne, West Dundee

This gives me a chance to really connect with the world.

Maria Hajera, Gilberts

The library has helped me write wonderful papers for my college courses when I didn't have a computer or printer at home"

Mary Jane Viven, Carpentersville

Thanks for offering downloads to Kindle and iPod. I really like the opportunity to listen and read on these devices.
