National Preservation Week is April 26 - May 2

The FRVPLD and the Dundee Township Historical Society have joined forces to bring you fun, informative programs during national Preservation Week. See page 3 for the details.

Director's Message National Library Week is April 12-18

National Library Week is the time to celebrate the ever-expanding ways libraries provide opportunities to learn, explore, imagine, create, and connect. Your FRVPLD staff watch trends and discover new tools for learning so patrons can experience them first hand. National Library Week is the perfect time to shine a spotlight on these new opportunities.

Maker Programs

The "maker" trend is taking off globally and is a natural fit for libraries. The movement emphasizes learning-through-doing in a social environment, driven by an inspiration to invent something new, or re-imagine something old. We've created a new "Maker Club" for teens (page 2) and have taken a fresh perspective on traditional "arts and crafts" with the program "Make an LED Bug" (page 5).

3D Printing

Thanks to a generous donation from The Friends of FRVPLD, a MakerBot 3D printer was added to our list of resources. Staff has been getting familiar with the technology, and now it's your turn. Meet and Greet our 3D printer at the Randall Oaks Library on Sunday, April 12. The first 50 guests will get a 3D printed fox charm. Then, learn how to create your own 3D objects at one of the classes listed on page 6.

Teaching Technology

This spring, we've added 16 Spanish computer classes at the Dundee Library and five computer classes at Randall Oaks (pages 6 and 7). During National Library Week join us for Intro to Outlook, Introducción a Computadoras - El Internet, or Intro to 3D Printing.

More hours = more programs

Find even more programs and classes at the Randall Oaks Library now that hours are longer. As you read through the pages inside, you will find storytimes, children's, teen, and adult programs, movies, and for the first time, computer classes.

Children and Teens

Our aim is to keep it interesting for these curious minds. During National Library Week, bring them in for a collage made of sticky notes, video games, a Mo Willems party, and the Joy of Jelly Beans (pages 2, 4 and 5). Let imaginations soar with our brand new puppet stage, doll house, LEGO table, sensory activity table, and kitchen - all donations from the Friends of FRVPLD.

Thank You

I would like to take this opportunity to thank the community members, library staff, and library trustees who provided input for the facility needs assessment being conducted by Library Planning Associates. We expect to share the recommendations in early spring. Go to frvpld.info and sign up for our e-newsletter to receive regular updates.
