Equal opportunity for all to learn, explore, imagine, create, and connect in a welcoming environment.

October 3, 2019

To: The Board of Trustees and Citizens of the Fox River Valley Public Library District

The Comprehensive Annual Financial Report (CAFR) for the Fox River Valley Public Library District (Library) for the fiscal year ended June 30, 2019 is hereby submitted. The CAFR has been prepared by the Library in accordance with the principles and standards for financial reporting set forth by the Governmental Accounting Standards Board (GASB), complies with generally accepted accounting principles (GAAP), and has been audited by the independent firm of Lauterbach & Amen, LLP.

The Public Library District Act of 1991 requires the Library to perform an annual audit and financial report, which conforms with Section 3 of the Governmental Account Audit Act (50 ILCS 310/2). For FY18/19, however, the Library recognizes the value added by a CAFR including a detailed introduction to the Library; information about each individual nonmajor fund; and statistical tables to demonstrate local trends.

Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Library. Strict internal controls ensure the Library's assets are protected from loss, theft, or misuse. Since the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. The data as presented is accurate in all material respects; fairly presents the financial position and results of operations of the Library as measured by the financial activity of its various funds; and provides the reader with relevant information needed to understand the Library's financial activities.

GAAP requires a Management Discussion and Analysis (MD&A) that includes a narrative introduction, overview, and analysis to accompany the financial statements. This letter of transmittal is meant to complement the MD&A and should be read in conjunction with it.

A Bit of History

In 1871, all of Chicago's various libraries were lost in the flames during the Chicago Fire. Great Britain sent a donation of more than 8,000 books to Chicago, but no suitable building or organization existed to either receive or preserve them. The donation spurred state legislators to support the library bill and Gov. John M. Palmer - known as a champion of reading and education - signed the Illinois Library Act of 1872 into law. The bill called for municipalities to form a governing board, levy taxes, hire library staff and maintain a collection for the interests of the community. By 1876, Dundee had a tax supported Library - among the first in Illinois.

Profile of the Library

The Fox River Valley Public Library District is as diverse as is it is large, serving approximately 70,000 residents in northeastern Kane County, Illinois. Straddling the Fox River, the Library primarily serves the entire villages of East Dundee, West Dundee, Carpentersville, Sleepy Hollow, and Gilberts, as well as parts of Algonquin, Barrington Hills, and Elgin. Each of the communities within the Library District is unique in its own right.

The Fox River splits East and West Dundee. With a robust economy, older buildings are revived and new buildings are constructed to feature classic bars alongside craft breweries, boutiques and bridal shops, many restaurants and even an old time candy shop.

Further to the west, Sleepy Hollow is a prosperous bedroom community, with majestic homes adjacent to lakes with large lots. Possessing few businesses, Sleepy Hollow boasts involved residents who are deeply committed to their village.

Like the Dundees, Carpentersville is also split by the Fox River and as a result is often split into two categories, Old Carpentersville and New Carpentersville. A visitor to Old Carpentersville will find newly renovated parks and older homes. Visitors to the riverfront will find a collapsed railroad bridge, fishermen patiently waiting for a giant Fox River flathead catfish and a recently renovated engineering plant reminiscent of the early 1900s - Carpentersville's largest employer, Otto Engineering. New Carpentersville sports pop-up developments with dozens of chain restaurants and a population that continues to increase as fast as homes can be built. Both Old and New Carpentersvilles sport vibrant Hispanic or Latino populations making up half the resident demographics.

Sitting on the western boundary of our district, Gilberts sees a lot of new development with many new, affluent subdivisions being constructed. Gilberts is close to both Chicago and Rockford, but far enough away to provide room for healthy growth of both families and light industrial manufacturing. Gilberts works to balance planning for its future and carrying on traditional values of the farmers that founded it.

The geographical boundaries of the FRVPLD closely resemble those of Community Unit School District 300 which consists of 25 public schools with more than 20,000 students (one of the largest school districts in Illinois), as well as several private and charter schools. Library programming and resources are often curated with these students in mind. Teachers in the district are eligible for library cards with extended check out period for books, and each year, every second-grade class in the district take a field trip to the Dundee Library.

Today the Library boasts two locations. The Dundee Library in East Dundee is located on the east side of the Fox River and serves as a 30,000 square foot main library. The 5,000 square foot branch library, Randall Oaks, resides in a leased space via a cooperative arrangement with the Dundee Township Park District, and is more centrally located within the geography of the Library District. The Library's mission is to provide "equal opportunity for all to learn, explore, imagine, create, and connect in a welcoming environment," with Core Values of:

- Community and Customer Service
- Diversity
- Intellectual Freedom
- Fiscal Responsibility
- Transparent Governance

Organized and operating under the provisions of the Public Library District Act, the Library is considered to be a primary government and provides a full range of informational and recreational materials and activities. The Library levies property taxes on real property within its boundaries, and is governed by a seven-member Board of Trustees serving staggered, four-year elected terms. The Library does not have any component units nor is it considered to be a component unit of another primary government. The Library Director oversees day-to-day operations including approximately 60 staff members.

The Library participates in the Illinois Municipal Retirement Fund (IMRF); Libraries of Illinois Risk Agency (LIRA); Wellness Insurance Network (WIN); and Cooperative Computer Services (CCS). These organizations are:

- 1. They are legally separate organized entities
- 2. They are fiscally independent of the Library
- 3. They are governed by their ownboards.

Audited financial statements for these organizations are not included in this report. However, such statements are available upon request from their respective business offices.

Legal Level of Budgetary Control

Government Accounting, Auditing, and Financial Reporting defines the "legal level of budgetary control" as "the level at which spending in excess of budgeted amounts would be a violation of law." Illinois Budget Law, 50 ILCS 330/1 et. Seq., as amended, requires all Illinois municipal corporations to adopt a Combined Annual Budget and Appropriation Ordinance specifying the objects and purposes of expenditures; and the Illinois Public Library District Act, 75 ILCS 15/3-

1 and 15/4-15, provides procedures for the passage of a Budget and Appropriation Ordinance and a Tax Levy Ordinance. To calculate the appropriation, first the Library created a working budget, using zero-based budgeting, which the board approved 6/19/2018 for FY18/19. The Library Director is responsible for ensuring that annual spending does not exceed the working budget. A small multiplication factor is added to the working budget to calculate the appropriation, which specifies the maximum amount which can be legally expended by the Library in the current fiscal year if sufficient funds are available. The appropriation outlines the objects and purposes of expenditures by fund, broken into six broad categories (personnel services / benefits, library materials, operations, utilities, building & maintenance, and capital). The Library cannot overspend any of these categories by swapping out between them: each is a distinct limit. The legal level of budgetary control is at the object level. The Board must pass an ordinance amending the appropriation in order to exceed any of these amounts, or to reallocate from one to another.

The budget as presented in the FY18/19 CAFR is the appropriation, which was passed by the board 9/18/2018 as Ordinance 2018-14 and filed with Kane County in October 2018. The board passed no ordinances amending the appropriation.

Local Economy

The Library has a mixed tax base that includes substantial residential, commercial, and industrial development - demonstrating diversity which should withstand an economic downturn in any singular area. Local property tax values were slow to recover from the 2008 recession, but rate-setting Equalized Assessed Value (EAV) has increased significantly in the past three years and more than \$75M in new construction in the past five years further boosts EAV. Local employment numbers are strong, with unemployment at only 4% last year and an abundance of manufacturing and service jobsavailable.

FY18/19 Statistics

- The Dundee Library was open 3,459 hours and the Randall Oaks Library was open 3,167 hours
- Funds are safeguarded using a \$1,750,000 Surety bond, with the Treasurer as designated custodian
- Printed materials accounted for just over half of materials expenditures, with Electronic materials (e-books and databases) accounting for a third, and Other materials (CDs, DVDs, Video Games) accounting for the remaining portion
- 30,808 registered cardholders, down 2.5% from last year
- 138,886 physical materials owned plus 1,000,000+ electronic items available
- 615,746 materials loaned, up 17% from last year-achieving a strategic plan goal
- 1,369 programs hosted last year, serving 35,432 patrons at an average of 26 attendees per program achieving a strategic plan goal
- 662 one-on-one instruction sessions, an increase of 65% from last year

• Achieved an average 9+ score out of 10 at both locations, using single-question evaluation technique to measure patron satisfaction

Major Initiatives

- Implemented OpenGov transparency software to showcase financial and nonfinancial transactions via our online dashboard, becoming the first library district in the nation to do so
- Partnered with Literacy Connection, Centro de Informacion, & US Citizenship & Naturalization Service to strengthen educational partnerships in support of parents, students, and adult learners
- Partnered with Boys & Girls Club, Jeri Hoffman Center, Two Rivers Head Start, Panera Bread Cookies & Milk, Aunt Martha's Health Center, Tutor Time, the Food Pantry at D300, Laundry King, & homeschooling community to increase program variety and engage non-users
- Served 1500+ Summer Lunches, paid for by the Summer Food Service Program (SFSP), a federally funded program managed by the USDA and operated by the Illinois State Board of Education in conjunction with the Northern Illinois Food Bank
- Constructed cash flow schedule to maximize bank and investment returns, earning \$175K in interest and dividend income
- Increased use of volunteers
- Reduced employee turnover via improved leave and insurance benefits package

Library and staff awards and recognition last year include:

- Certificate of Achievement for Excellence in Financial Reporting for FYI718
- Treasurer- Carpentersville-Morning Rotary

Acknowledgements

Preparation of the Comprehensive Annual Financial Report was made possible by the Library's dedicated staff. The Library's success is a result of their contributions not only to this report, but also for their commitment to understanding and following Library policies and procedures, to ensure the high integrity of the information presented in this financial report. Thanks also to the Board of Trustees for leadership and support in the financial operations and policies of the Fox River Valley Public Library District.

Sincerely,

Lauren A. Rosenthal Library Director

Government Finance Officers Association

INDEPENDENT AUDITORS' REPORT

October 3, 2019

Members of the Board of Trustees Fox River Valley Public Library District Dundee, Illinois

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Fox River Valley Public Library District, Illinois, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Library's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Library's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Library's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Fox River Valley Public Library District, Illinois, as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Fox River Valley Public Library District, Illinois October 3, 2019 Page 2

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents and budgetary information reported in the required supplementary information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Fox River Valley Public Library District, Illinois' basic financial statements. The introductory section, combining and individual fund financial statements and budgetary comparison schedules, supplemental schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and budgetary comparison schedules and supplemental schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and budgetary comparison schedules and supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis June 30, 2019

Our discussion and analysis of the Fox River Valley Public Library District's financial performance provides an overview of the Library's financial activities for the fiscal year ended June 30, 2019. Please read it in conjunction with the Library's financial statements, which begin on page 18.

FINANCIAL HIGHLIGHTS

- The Library's net position increased from \$6,242,060 to \$6,648,462 an increase of \$406,402 or 6.5 percent.
- During the year, government-wide revenues totaled \$3,707,509 while government-wide expenses totaled \$3,301,107, resulting in an increase to net position of \$406,402.
- Total fund balance for the governmental funds were \$5,106,865 at June 30, 2019 compared to \$4,496,004 prior year balance, an increase of \$610,861 or 13.6 percent.

USING THIS ANNUAL FINANCIAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 18 - 20) provide information about the activities of the Library as a whole and present a longer-term view of the Library's finances.

Fund financial statements begin on page 21 For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Library's operation in more detail than the government-wide statements by providing information about the Library's most significant funds.

Government-Wide Financial Statements

The government-wide financial statements provide readers with a broad overview of the Library's finances, in a matter similar to a private-sector business. The government-wide financial statements can be found on pages 18 - 20 of this report.

The Statement of Net Position reports information on all of the Library's assets/deferred outflows and liabilities/deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Library is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the Library's property tax base, is needed to assess the overall health of the Library.

Management's Discussion and Analysis June 30, 2019

USING THIS ANNUAL FINANCIAL REPORT – Continued

Government-Wide Financial Statements – Continued

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

Both of the government-wide financial statements report functions of the Library that are principally supported by taxes and charges for services revenues (governmental activities). The governmental activities of the Library include public library.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Library, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Library only maintains governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Library's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

Management's Discussion and Analysis June 30, 2019

USING THIS ANNUAL FINANCIAL REPORT – Continued

Fund Financial Statements – Continued

Governmental Funds – Continued

The Library maintains seven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and Capital Project/Special Reserve Fund, which are considered major funds. Data from the other five governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The Library adopts an annual appropriated budget for all of the governmental funds, except the Working Cash Fund. A budgetary comparison schedule for these funds has been provided to demonstrate compliance with this budget. The basic governmental fund financial statements can be found on pages 21 - 24 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 25 - 44 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Library's I.M.R.F. employee pension obligations and budgetary comparison schedules for the General Fund. Required supplementary information can be found on pages 45 - 48 of this report. The combining statements referred to earlier in connection with non-major governmental funds is presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found on pages 49 - 53 of this report.

Management's Discussion and Analysis June 30, 2019

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that in the case of the Library, assets/deferred outflows exceeded liabilities/deferred inflows by \$6,648,462.

		Net Position		
		2019	2018	
			_	
Current Assets	\$	8,707,797	7,987,274	
Capital Assets		2,096,725	2,282,995	
Total Assets		10,804,522	10,270,269	
Deferred Outflows		791,719	360,038	
Total Assets/Deferred Outflows		11,596,241	10,630,307	
Long-Term Debt Outstanding		1,219,022	323,334	
Other Liabilities		215,514	193,709	
Total Liabilities		1,434,536	517,043	
Deferred Inflows		3,513,243	3,871,204	
Total Liabilities/Deferred Inflows		4,947,779	4,388,247	
	•			
Net Position				
Investment in Capital Assets		2,096,725	2,282,995	
Restricted		472,723	500,644	
Unrestricted		4,079,014	3,458,421	
Total Net Position		6,648,462	6,242,060	

A large portion of the Library's net position (31.5 percent) reflects its investment in capital assets (for example, land, buildings, vehicles, and equipment). The Library uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

An additional portion (7.1 percent) of the Library's net position represents resources that are subject to external restrictions on how they may be used. The Library has restrictions for Donations, FICA, IMRF, and Working Cash. The remaining \$4,079,014, or 61.4 percent, designated as unrestricted net position is available for a variety of uses including a) compliance with the Library's policy to maintain a General Fund unrestricted balance of no less than three months nor more than twelve months for operating expenditures (at 4.5 months) and b) transferring a portion to the Capital Projects/Special Reserve Fund for commitment to future renovation, expansion, and capital needs.

Management's Discussion and Analysis June 30, 2019

GOVERNMENT-WIDE FINANCIAL ANALYSIS – Continued

	Change in Net Position		
	2019	2018	
Revenues		_	
Program Revenues			
Charges for Services	\$ 58,320	73,873	
Operating Grants/Contributions	99,463	58,211	
General Revenues			
Property Taxes	3,305,446	3,192,377	
Personal Property Replacement Taxes	47,071	43,511	
Interest	175,674	29,773	
Miscellaneous	21,535	21,184	
Total Revenues	3,707,509	3,418,929	
Expenses			
General Government	3,301,107	3,202,267	
Change in Net Position	406,402	216,662	
Net Position - Beginning	6,242,060	6,025,398	
Net Position - Ending	6,648,462	6,242,060	

Revenues of \$3,707,509 exceeded expenses of \$3,301,107, resulting in the increase to net position in the current year of \$406,402, primarily due to a \$145,901, or 4.9 fold, increase in interest.

Governmental Activities

In the current year, governmental net position increased \$406,402, an increase of 6.5 percent. This is due primarily to property taxes and interest increasing \$113,069 or 3.5 percent and \$145,901 or 490 percent, respectively from the prior year (property taxes \$3,192,377 in 2018 compared to \$3,305,446 in 2019, interest \$29,773 in 2018 and \$175,674 in 2019). Expenses increased \$98,840 or 3.1 percent from the prior year (\$3,202,267 in 2018 compared to \$3,301,107 in 2019).

Management's Discussion and Analysis June 30, 2019

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the Library uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The focus of the Library's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the governmental funds reported combined ending fund balances of \$5,106,865, which is \$610,861 or 13.6 percent higher than last year's ending fund balance of \$4,496,004.

The General Fund reported an increase of \$28,280, due primarily to a \$591,950 transfer to the Capital Project/Special Reserve Fund for future capital project spending with an offsetting increase in property taxes of \$116,380 or 3.9 percent compared to prior year. The Capital Project/Special Reserve Fund reported an increase of \$625,130 due primarily to a transfer in from the General Fund for future capital spending.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the year, there were no supplemental amendments made to the budget for the General Fund.

The General Fund actual revenues were higher than budgeted revenues. Actual revenues for the current year were \$3,382,302, compared to budgeted revenues of \$3,361,393. This resulted primarily from interest revenue of \$70,233 which was over budget by \$46,033.

The General Fund actual expenditures were lower than budgeted expenditures by \$570,653 or 17.1 percent. Actual expenditures totaled \$2,762,072, while budgeted expenditures totaled \$3,332,725. This was due primarily to substantial savings realized versus the budget expenditures, primarily in the areas of personnel and benefits (\$268,327), operations (\$83,315) and library materials (\$81,600).

CAPITAL ASSETS

The Library's investment in capital assets for its governmental activities as of June 30, 2019 was \$2,096,725 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, land improvements, furniture and equipment, vehicle, and books and library materials.

Management's Discussion and Analysis June 30, 2019

CAPITAL ASSETS – Continued

The total decrease in the Library's investment in capital assets for the current fiscal year was \$186,270. This overall decrease is due to capital asset additions of \$276,744 that were lower than the depreciation expense of \$463,014 for the year.

	Capital Assets	Capital Assets - Net of Depreciation		
	2019	2018		
Land	\$ 58,000	58,000		
Buildings and Improvements	907,313	1,040,582		
Land Improvements	48,386	60,387		
Furniture and Equipment	192,108	211,818		
Vehicle	9,916	12,120		
Books and Library Materials	881,002	900,088		
Totals	2,096,725	2,282,995		

This year's additions to capital assets included \$26,687 in furniture and equipment and \$250,057 in library books and material collection.

Additional information on the Library's capital assets can be found in note 3 on page 33 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The Library's elected and appointed officials considered many factors when setting the fiscal-year 2020 budget, including tax rates and library fees. One of those factors is a robust economy where employee retention is more challenging. Current policy dictates the employee salary scale is revisited every three years to ensure compensation is competitive with libraries similar in population served and budget range. In fiscal year 2019 a new salary scale was approved with new categories of employment and upwardly revised pay rates. As a result, fiscal year 2019 saw significantly less employee turnover than the previous year. While Illinois' minimum wage increase will be effective 1/1/2020, this does not affect the fiscal year 2020 budget since the Library's lowest pay rate exceeds \$9.25 per hour. However, annual salary scale adjustments rather than every three years will be implemented for fiscal year 2021 and are already being factored into future planning.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Library's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to the Fox River Valley Public Library District, 555 Barrington Avenue, Dundee, Illinois 60118.

BASIC FINANCIAL STATEMENTS

The basic financial Statements include integrated sets of financial statements as required by the GASB. The sets of statements include:

- Government-Wide Financial Statements
- Fund Financial Statements

In addition, the notes to the financial statements are included to provide information that is essential to a user's understanding of the basic financial statements.

Notes to the Financial Statements June 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Fox River Valley Public Library District (Library) of Illinois serves nearly 70,000 residents in the communities of East Dundee, West Dundee, Carpentersville, Gilberts, Sleepy Hollow, and parts of Algonquin, Barrington Hills, and Elgin. Formerly known as the Dundee Township Public Library District, the Library's history as a tax supported entity reaches back to the 1870's. The purpose of the Library is to provide an environment of intellectual freedom for the diverse community it serves by providing the services, programs, materials and information needed to remember the past, live in the present and strive for the future.

REPORTING ENTITY

In determining the financial reporting entity, the Library complies with the provisions of GASB Statement No. 61, "The Financial Reporting Omnibus – an Amendment of GASB Statements No. 14 and No. 34," and includes all component units that have a significant operational or financial relationship with the Library. Based upon the criteria set forth in the GASB Statement No. 61, there are no component units included in the reporting entity.

BASIS OF PRESENTATION

Government-Wide Statements

The Library's basic financial statements include both government-wide (reporting the Library as a whole) and fund financial statements (reporting the Library's major funds). The Library only reports governmental activities.

In the government-wide Statement of Net Position, the governmental activities is (a) presented on a consolidated basis, and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets/deferred outflows and receivables as well as long-term debt/deferred inflows and obligations. The Library's net position is reported in three parts: net investment in capital assets, restricted; and unrestricted. The Library first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the Library's functions. The functions are supported by general government revenues (property and personal property replacement taxes, certain intergovernmental revenues, interest income, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

The net costs (by function) are normally covered by general revenue (property and personal property replacement taxes, certain intergovernmental revenues, interest income, etc.).

Notes to the Financial Statements June 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

BASIS OF PRESENTATION – Continued

Government-Wide Statements – Continued

The Library does not allocate indirect costs. An administrative service fee is charged by the General Fund to the other operating funds that is eliminated like a reimbursement (reducing the revenue and expense in the General Fund) to recover the direct costs of General Fund services provided (finance, personnel, purchasing, legal, technology management, etc.).

This government-wide focus is more on the sustainability of the Library as an entity and the change in the Library's net position resulting from the current year's activities.

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Library:

General fund is the general operating fund of the Library. It accounts for all revenues and expenditures of the Library which are not accounted for in other funds. The General Fund is a major fund.

Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Library maintains two nonmajor special revenue funds.

Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. The Library maintains one Capital Projects Fund. The Special Reserve Fund, a major fund, is used to account for capital improvements of the Library.

Permanent funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs, that is, for the benefit of the government or its citizenry. The Library maintains one nonmajor permanent fund.

Notes to the Financial Statements June 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, governmental funds are presented using the economic resources measurement focus as defined below. In the fund financial statements, the "current financial resources" measurement focus is utilized.

The accounting objectives of the "economic resources" measurement focus is the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows, liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported.

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflow is incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. The Library recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred.

Notes to the Financial Statements June 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING – Continued

Basis of Accounting – Continued

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, interest revenue, and grants. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY

Cash and Investments

For purpose of the Statement of Net Position, the Library's cash and cash equivalents are considered to be cash on hand, demand deposits, and cash with fiscal agent.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the Library categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. All of the Library's investments are in 2a7-like investment pools that are measured at the net asset value per share determined by the pool.

Prepaids

Prepaids are valued at cost, which approximates market. The cost of governmental fund-type prepaids are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements.

Notes to the Financial Statements June 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY – Continued

Interfund Receivables, Payables and Activity

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

Capital Assets

Capital assets purchased or acquired with an original cost of more than \$5,000, are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the Library as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. The valuation basis for general capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Buildings and Improvements	5 - 50 Years
Land Improvements	10 - 20 Years
Furniture and Equipment	3 - 20 Years
Vehicles	8 Years
Books and Library Materials	7 Years

Notes to the Financial Statements June 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY – Continued

Deferred Outflows/Inflows of Resources

Deferred outflow/inflow of resources represents an acquisition/reduction of net position that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

Compensated Absences

The Library accrues accumulated unpaid vacation and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Long-Term Obligations

In the government-wide financial statements long-term obligations are reported as liabilities in the governmental activities statement of net position.

Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Investment in Capital Assets – Consists of capital assets, including restricted capital assets, net of accumulated depreciation.

Restricted – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislations.

Unrestricted – All other net position balances that do not meet the definition of "restricted" or "investment in capital assets."

Notes to the Financial Statements June 30, 2019

NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGETARY INFORMATION

Budgets are adopted on a modified cash basis. Annual appropriated budgets are adopted for the General Fund, the special revenue funds and the capital projects fund. All annual appropriations lapse at fiscal year-end. No supplemental appropriations were necessary in the current fiscal year.

NOTE 3 – DETAIL NOTES ON ALL FUNDS

DEPOSITS AND INVESTMENTS

The Library maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "cash and investments." In addition, investments are separately held by several of the Library's funds.

Permitted Deposits and Investments – Statutes authorize the Library to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and Illinois Funds.

The Illinois Funds is an investment pool managed by the Illinois Public Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. The Illinois Funds is not registered with the SEC as an investment company. Investments in Illinois Funds are valued at the share price, the price for which the investment could be sold.

Interest Rate Risk, Credit Risk, Concentration Risk, and Custodial Credit Risk

Deposits. At year-end, the carrying amount of the Library's deposits totaled \$5,525,640 and the bank balances totaled \$5,523,683. Additionally, at year-end, the Library has \$1,060,868 invested in Illinois Funds, which has an average maturity of less than one year.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. It is the policy of the Library to limit its exposure to interest rate risk by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity. The Library's investment policy does not specifically limit the maximum maturity length of investments.

Notes to the Financial Statements June 30, 2019

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

DEPOSITS AND INVESTMENTS – Continued

Interest Rate Risk, Credit Risk, Concentration Risk, and Custodial Credit Risk - Continued

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Library's investment policy states the Library will minimize credit risk by limiting investments to the types of securities permitted under Illinois Public Funds Investment Act, 30ILCS 235/1 and diversify the investment portfolio so that the impact of potential losses from any one type of security or from any one individual issuer will be minimized. At year-end, the Library's investments in the Illinois Funds were rated AAAm by Standard & Poor's.

Concentration Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of the Library's investment in a single issuer. The Library's investment policy does not mitigate concentration risk. At year-end, the Library does not have any investments over 5 percent of the total cash and investment portfolio (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the Library's deposits may not be returned to it. The Library's investment policy states the Library will minimize custodial risk by maintaining a list of public depositories, financial institutions and broker/dealers authorized to provide deposit and investment services and further states that all public depositories, financial institutions and broker/dealers authorized to provide deposit and investment services must supply as appropriate audited financial statements demonstrating compliance with state and federal capital adequacy guidelines. At year-end, the entire amount of the bank balance of the deposits was covered by federal depository or equivalent insurance.

For an investment, this is the risk that in the event of the failure of the counterparty, the Library will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. At year-end, the Library's investment in the Illinois Funds is not subject to custodial credit risk.

PROPERTY TAXES

Property taxes for 2018 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and are payable in two installments, on or about June 1 and September 1. The County collects such taxes and remits them periodically.

Notes to the Financial Statements June 30, 2019

Total Net Capital Assets	2,282,995	(186,270)	-	2,096,725

Depreciation expense of \$463,014 was charged to the culture and recreation function.

Notes to the Financial Statements June 30, 2019

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

INTERFUND TRANSFERS

Transfers are used to move unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. As of June 30, 2019, interfund transfers for the year consisted of the following:

Transfer In	Transfer Out	Amount
Special Reserve	General	\$ 591,950

LONG-TERM DEBT

Long-Term Liability Activity

Changes in long-term liabilities during the fiscal year were as follows:

Type of Debt	Beginning Balances	Additions	Deductions	Ending Balances	Amounts Due within One Year
Compensated Absences Net Pension Liability - IMRF	\$ 57,732 277,148	15,316 889,562	7,658 -	65,390 1,166,710	13,078
	334,880	904,878	7,658	1,232,100	13,078

For the governmental activities, the compensated absences and net pension liability are generally liquidated by the General Fund.

Legal Debt Margin

Chapter 65, Section 5/8-5-1 of the Illinois Compiled Statutes provides, "...no municipality having a population of less than 500,000 shall become indebted in any manner or for any purpose, to an amount, including existing indebtedness in the aggregate exceeding 2.875% on the value of the taxable property therein, to be ascertained by the last assessment for state and county purposes, previous to the incurring of the indebtedness or, until January 1, 1983, if greater, the sum that is produced by multiplying the municipality's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979."

Assessed Valuation - 2018	\$ 1,774,986,162
Legal Debt Limit - 2.875% of Assessed Value	51,030,852
Amount of Debt Applicable to Limit	
Legal Debt Margin	51,030,852

NET POSITION/FUND BALANCES

Net Position Classification

Net investment in capital assets was comprised of the following as of June 30, 2019:

Governmental Activities
Investment in Capital Assets

\$ 2,096,725

Fund Balance Classifications

In the governmental funds financial statements, the Library considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The Library first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

Nonspendable Fund Balance. Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

Restricted Fund Balance. Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance. Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Board of Trustees; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

Assigned Fund Balance. Consists of amounts that are constrained by the Board of Trustees' intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Board of Trustees itself or b) a body or official to which the Board of Trustees has delegated the authority to assign amounts to be used for specific purposes. The Library's highest level of decision-making authority is the Board of Trustees, who is authorized to assign amounts to a specific purpose.

Unassigned Fund Balance. Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

Minimum Fund Balance Policy. The Library policy manual states that the General Fund should maintain minimum fund balance equal to 25% and no more than twelve months of budgeted operating expenditures. Fund balances in excess of said levels may be transferred to the Capital Projects fund.

Notes to the Financial Statements June 30, 2019

NOTE 4 – OTHER INFORMATION

CONTINGENT LIABILITIES

Litigation

The Library is not involved in any lawsuits.

Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Library expects such amounts, if any, to be immaterial.

JOINTLY GOVERNED ORGANIZATIONS

The Library participates in Cooperative Computer Services (CCS). CCS is an intergovernmental instrumentality formed by library members of the North Suburban Library System, and exists to administer a jointly owned integrated library automation system. CCS's governing board is comprised of one member from each participating library. No participant has any obligation, entitlement, or residual interest in CCS. In order to terminate membership in CCS, member libraries must provide one-year notice of termination. The Library's expenditures to CCS for the year ended June 30, 2019 was \$59,029.

RISK MANAGEMENT

The Library is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to the Library's employees. These risks are provided for through insurance from private insurance companies. The Library currently reports all its risk management activities in the General Fund. The Library increased insurance coverages from the prior year to account for improvements made to the Library and settlements did not exceed insurance coverage in any of the past three fiscal years.

Notes to the Financial Statements June 30, 2019

NOTE 4 – OTHER INFORMATION – Continued

EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLAN

Illinois Municipal Retirement Fund (IMRF)

The Library contributes to one defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained online at www.imrf.org. The benefits, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

Plan Description

Plan Administration. All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

IMRF provides two tiers of pension benefits. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Notes to the Financial Statements June 30, 2019

NOTE 4 – OTHER INFORMATION – Continued

EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLAN – Continued

Illinois Municipal Retirement Fund (IMRF) – Continued

Plan Descriptions – Continued

Benefits Provided – Continued. Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Plan Membership. As of December 31, 2018, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	32
Inactive Plan Members Entitled to but not yet Receiving Benefits	37
Active Plan Members	35
Total	104

Contributions. As set by statute, the Library's Regular Plan Members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the fiscal year ended June 30, 2019, the Library's annual contribution rate for the year was 9.94% of covered payroll.

Net Pension Liability. The Library's net pension liability was measured as of December 31, 2018. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Notes to the Financial Statements June 30, 2019

NOTE 4 – OTHER INFORMATION – Continued

EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLAN – Continued

Illinois Municipal Retirement Fund (IMRF) – Continued

Plan Descriptions – Continued

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation performed, as of December 31, 2018, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Market
Actuarial Assumptions Interest Rate	7.25%
Salary Increases	3.39% - 14.25%
Cost of Living Adjustments	2.50%
Inflation	2.50%

For nondisabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality tables was used with fully generational projection scale MP-2017 (base year 2015). IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for nondisabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Notes to the Financial Statements June 30, 2019

NOTE 4 – OTHER INFORMATION – Continued

EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLAN – Continued

Illinois Municipal Retirement Fund (IMRF) - Continued

Plan Descriptions – Continued

Actuarial Assumptions – Continued

Asset Class	Target	Long-Term Expected Real Rate of Return
Fixed Income	28.00%	3.75%
Domestic Equities	37.00%	7.15%
International Equities	18.00%	7.25%
Real Estate	9.00%	6.25%
Blended	7.00%	3.20% - 8.50%
Cash and Cash Equivalents	1.00%	2.50%

Discount Rate

The discount rate used to measure the total pension liability was 7.25%, and 7.50% in prior year valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that Library contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the pension liability of the Library calculated using the discount rate as well as what the Library's net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

		Current		
	1% Decrease	Discount Rate	1% Increase	
	(6.25%)	(7.25%)	(8.25%)	
Net Pension Liability	\$ 1,963,273	1,166,710	510,955

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2019, the Library recognized pension expense of \$153,547. At June 30, 2019, the Library reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred	Deferred	
	Outflows of	Inflows of	
	 Resources	Resources	Total
Difference Between Expected and Actual Experience	\$ 213,866	(9,091)	204,775
Changes of Assumptions	129,966	(105,656)	24,310
Net Difference Between Projected and Actual			
Earnings on Pension Plan Investments	 382,598	-	382,598
Total Pension Expense			_
to be Recognized in Future Periods	726,430	(114,747)	611,683
Pension Contributions Made Subsequent			
to the Measurement Date	 65,289	-	65,289
Total Deferred Amounts Related to Pensions	 791,719	(114,747)	676,972

\$65,289 reported as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the reporting year ended June 30, 2020. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

	1,002	eferred
Fiscal	Outf	lows
Year	of Res	ources
2020	\$ 2	12,338
2021	1	35,324
2022	1	12,898
2023	1.	51,123
2024		-
Thereafter		
Total	6	11,683

Notes to the Financial Statements June 30, 2019

NOTE 4 – OTHER INFORMATION – Continued

OTHER POST-EMPLOYMENT BENEFITS

The Library has evaluated its potential other postemployment benefits liability. Former employees who choose to retain their rights to health insurance through the Library are required to pay 100% of the current premium. However, there is minimal participation. As the Library provides no explicit benefit, and there is minimal participation, there is no material implicit subsidy to calculate in accordance with GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. Therefore, the Library has not recorded a liability as of June 30, 2019.

REQUIRED SUPPLEMENTARY INFORMATION

Required supplementary information includes financial information and disclosures that are required by the GASB but are not considered a part of the basic financial statements. Such information includes:

OTHER SUPPLEMENTARY INFORMATION

Other supplementary information includes financial statements and schedules not required by the GASB, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

Such statements and schedules include:

- Budgetary Comparison Schedules Major Governmental Funds
- Combining Statements Nonmajor Governmental Funds
- Budgetary Comparison Schedules Nonmajor Governmental Funds

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

GENERAL FUND

The General Fund is used to account for all financial resources except those required to be accounted for in another fund.

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than fiduciary funds or capital project funds) that are legally restricted to expenditure for specified purposes.

FICA Fund

The FICA Fund is used to account for the Library's portion of Social Security and Medicare paid on behalf of its employees. Financing is provided by a specific annual property tax levy which produces a sufficient amount to pay the Library's portion.

Illinois Municipal Retirement Fund

The Illinois Municipal Retirement Fund is used to account for the Library's participation in the Illinois Municipal Retirement Fund. Financing is provided by a specific annual property tax levy which produces a sufficient amount to pay the Library's contributions to the fund on behalf of its employees.

CAPITAL PROJECTS FUND

Capital Projects Funds are used to account for all resources used for the acquisition of capital facilities by a governmental unit except those financed by Proprietary and Trust Funds.

Special Reserve Fund

The Special Reserve Fund is used to account for future capital improvements at the Library.

PERMANENT FUND

Permanent Funds are used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs, that is, for the benefit of the government or its citizenry.

Working Cash Fund

The Working Cash Fund is used to account for payments for general government expenditures if tax revenue is temporarily unavailable. Upon receipt of tax revenues, the general fund must repay this permanent fund.

Special Reserve - Capital Projects Fund

STATISTICAL SECTION (Unaudited)

This part of the comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the District's most significant local revenue sources.

Debt Capacity

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.
