

TRANS AM RACING JULY 6 & 7

Trans American Sedan Racing started in 1966 and has rapidly become a favorite among the race fans of the country. The over two liter class has been adopted by the automobile manufacturers as the place to prove their "pony" cars with Mustangs, Camaros and the newest entry in the field, the Javelin from American Motors.

Going into this race at Meadowdale, after 6 other Trans Am races at such famous tracks as Daytona, Sebring, Mid Ohio, Warbonnet and Bridgehampton and Lime Rock, the Roger Penske Camaro stands in first place with Carroll Shelby's Mustangs and Ron Kaplans red white and blue Javelins close on his heels.

This race at the newly remodeled Meadowdale promises to be one that will be hotly contested since it comes on the home grounds of American Motors.

Pack up Mama and the kids (those under 12 come for free) and come on out and see some really first class racing on the 3.5 mile track. Sit high in the new grandstands and see over two thirds of the road course without moving, or bring a blanket and watch the tight and twisty part of the course where it winds through the hills... it only takes a scant half hour from the city limits of Chicago to be out in the open air at Meadowdale. Plenty of fine restaurants nearby or enjoy a picnic lunch at the refreshment stands.

Saturday July 6 only—\$2.00 practice

Sunday July 7 only—\$5.00 races

Saturday and Sunday July 6 & 7—1968 \$6.00
